Let us help you create that lasting first impression...

First impressions are lasting impressions where simple touches can transform a moment from every day to extraordinary.

At Enjoy Lighting, a proud Australian company, we are renowned for creating realistic flameless candles that are economical as well as stunning, offering ambience without the mess, easy to use and safe.

Our flameless candles are handcrafted in Vietnam by skilled artisans and feature our trademarked technology that replicates the most realistic flame-like flicker on the market.

Working alongside our master candle makers and clever product developers, we've blended artistry and technology to create two mesmerizingly realistic designs; our Enjoy® Platinum Collection, known for its signature patented Triple LED technology, loved around the world, featuring the perfect melted top edge, with light emanating through the core of the candle, and our newest family member, the recently launched Uyuni® Lighting Collection, with a 3D wick, our new generation remote enabled patented design.

Both designs are safer than a real candle, made from 100% virgin paraffin wax and hand poured by artisans using age-old techniques.

Introducing a stylish and natural element like our Enjoy® flameless candles into your space is a great way to create a sense of calm and comfort to your environment. Coveted by some of the most respected interior professionals around the world, Enjoy® candles are timeless and will perfectly compliment any interior space. Whether it be a balmy summer evening or a chilly winters night, our beautiful flameless candles will create an ambient light, as a stunning standalone cluster or accentuating any of your decorator pieces. You will be amazed by the versatility our candles offer, allowing you to create an effortlessly elegant interior style.

Transform a moment from every day to extraordinary; you won't believe your eyes.

*We hope you love them
as much as we do. x*

uyuni[™]
LIGHTING

The Uyuni Salt Flats in Bolivia are famous for its crystal clear night skies where the stars shine brighter than just about anywhere else on earth. Uyuni candles bring a sense of these distant galaxies right into your home with gently flickering lights illuminating the dark and creating a restful and inviting ambience.

Inspired by the beauty of nature and the mystery of the night, these beautiful hand-crafted battery operated luxury flameless candles are all remote enabled, with timer and dimmer options, allowing you to personalise every occasion.

After a sell-out launch, our new 3D wick design returns with a brand overhaul and in stunning new European inspired packaging.

*We can't wait to share Uyuni
Lighting with you. x*

Classic Ivory Smooth

In a world where trends come and go, the classic style will always stay true. Quietly understated, simple and sophisticated, our Classic Ivory is timeless enough to belong to both its space and its environment. We are proud to present Uyuni Lighting, our highly functional and aesthetically versatile 3D Wick design, inspired by timeless styling and elegance, now in new European inspired packaging to match.

Uyuni Lighting Classic Ivory is offered across eight design elements, including seven different sized pillars and, by popular request, two different height tapers.

All remote enabled, each flameless candle is handmade and hand poured from virgin paraffin wax, and features our newest generation technology packed with options including multiple timer and brightness preferences.

And whilst you'll be mesmerized by the light play as it casts its reflection across the surface of each pillar, Uyuni Lighting is the first patented 3D Wick candle that truly looks as good on as it looks off.

UYUNI Lighting

Nordic White Smooth

Our beautiful Nordic White flameless candle takes inspiration from our long-standing love affair of the classic white interior. Featuring clean lines to enhance any space, you'll notice that less really is more.

Like our Classic Ivory, our Nordic White collection of flameless candles with 3D Wick design are handmade and hand poured from virgin paraffin wax. All remote enabled, each candle features our newest generation technology packed with options including multiple timer and brightness preferences.

Uyuni Lighting Nordic White is offered across an extended collection of ten design elements, seven of which are pillars, including the popular and impressive triple-wicked 15cm x 15cm candle, created for maximum styling impact. The newest additions to this collection are, in an Australian first, all remote enabled, and include two different height tapers, our perennially beautiful Christmas Tree candle standing at a commanding 20cm tall, and the most incredible tea light the world has ever seen.

With the distinct value add of the Uyuni Lighting design looking good from anywhere you stand in the room, we've truly got your styling requirements covered.

Enjoy® Lighting Platinum Collection Everyday Neutrals

Classic Ivory and Nordic White Smooth

Timeless design has staying power, which is why Enjoy® Lighting flameless candles are not a fad or a trend; they are a lifestyle choice.

Australian designed and owned, Enjoy's trademarked, triple LED technology encased in a hand poured wax shell with a melted top edge are available in five pillar sizes, across 4 design elements (Classic Ivory, Nordic White, Carrara Marble and The Botanicals) and are all perfectly scaled and proportioned.

Enjoy's Platinum Collection of everyday neutrals, in Classic Ivory and Nordic White, are the core of our range. Functional and beautiful, with a quiet confidence, this collection will add ambience without overpowering a room, creating instant warmth in any environment. Eye catching en masse and highly versatile, these flameless candles will enhance any décor, especially if grouped together for a striking visual impact.

Coveted by hotel and hospitality groups, interior designers, stylists, wedding and event planners and celebrities, Enjoy flameless candles are completely safe and come with an inbuilt "Set it and Forget it™" multi-timer functionality which, once set, will automatically switch on and off at the same time every day to create instant mood lighting without having to lift a finger.

Economical as well as stunning, only two AA batteries are required to offer more than 450 hours for ambient mood lighting. No wonder the discerning consumer asks for Enjoy® by name.
